

INTRODUCTION TO THE FREE 9-11 FORBIDDEN KNOWLEDGE LIBRARY

I once saw a film about "The Man Who Predicted 9/11."

"What?" thought to myself, "How could somebody have known about all this in advance?" Wasn't it supposed to have been a complete surprise? Furthermore, if this man knew about it - and told others so vociferously about it - *why was nothing done to stop the attacks*; or at the very least, to save more lives of the innocent. How could he possibly have known?

This was to be the beginning of a journey.

I soon learned that many people had known about the impending 9/11 attacks in advance. And they knew in detail. Certain key employees at nearly every level of government agencies - that is, within the FBI and CIA - had definitely known about the attacks in advance. Others had anticipated these attacks for years ahead of time. "The Man Who Predicted 9/11" was not only correct - he was not alone. Why was nothing done? Were the hijackers really so crafty that they were known, but had all evaded capture for years?

Also, looking at the list of perpetrators who were supposed to have hijacked the planes and then skillfully flown them acrobatically into buildings, I soon discovered that many or even most of them were still alive and doing quite well... after their "suicide" missions were complete! Once this fact had become undeniable, the FBI abruptly changed tack, declaring that the hijackers had really used stolen identities (proposing that the FBI was duped all along) - but then provided no clue who the hijackers really were. In fact, the 'official list' using the "stolen" identities - officially acknowledged to be a fiction - remains unchanged. Why?

I began to suspect, as you might also, that the whole story given to us about the events of 9/11 might be largely fictitious. The extent of the fallacies I did not know. And although I could not fathom a reason for such deception at the time, this is where the facts were really pointing.

To be convinced of something so outrageous, I had to see the evidence for myself. I discovered to my dismay that many of the resources, original news stories, and key documentation were becoming harder and harder to get. In fact, it appears that around 2006-2007, *a deliberate effort was being made to "scrub" many of these documents from the internet*. Thanks to just a few generous individuals, copies of these sources were obtained in spite of that, and are preserved for you here. Thus, thanks to digital technology and to you, this "scrubbing" of the internet is now and forever circumvented.

The average person cannot take the time to view all these documents. To just get the feel of what is here, look over some of the summaries and timelines in folders #1 and #2. Or perhaps, just watch the movies in folder #12.

The normal response, I believe, is to remain skeptical after that. That is exactly why such a large body of evidence is included as well. If you then have the time and interest, examine the documents, audio recordings, video, and images for yourself.

The one thing I urge you to do, even if you do not make much use of it, is simply to **keep this disk**. If possible, **share it's contents with others**.

The crime of 9/11 is evidently much, much larger than that of religious bigots lashing out in their ignorance and hatred. Complicity in mass murder is as much a crime as mass murder itself.

If that complicity is not exposed, those who sought to exploit mass murder for their nefarious purposes will no doubt become emboldened. And the innocent will again pay for that with their lives.

Those who forget history, are doomed to repeat it.
